

**Safe Route To Schools Committee
Survey of Town Sidewalks (unofficial)**

CONCRETE SIDEWALK WIDTHS AND SETBACKS: EXISTING EXAMPLES

8-Foot Concrete Sidewalk

- North side of Strathmore Avenue west from Kenilworth Avenue to Town Limits

5-Foot Concrete Sidewalk

- Most of Strathmore Avenue within Town Limits
- Knowles Avenue, south side, within Town Limits
- Keswick Street and Cambria Avenue in vicinity of Cambria Park, west and north sides
- Keswick Street sidewalk *including curb* at south boundary of Cambria Park, west side

4'-3" Concrete Sidewalk

- North side of Strathmore Avenue midway between Clermont and Montrose Avenues (adjacent to low stone wall)

4-Foot Concrete Sidewalk

- Keswick Street sidewalk *including curb* where holly tree north of but near Strathmore Avenue constrained options
- Kenilworth Avenue, both sides, between Waverly Triangle and Strathmore Avenue, *including construction by SHA near Strathmore*
- Kenilworth Avenue, west side, between Strathmore Avenue and Oxford Street, *including construction by SHA near Strathmore*
- Oxford Street, north side, between Kenilworth Avenue and GPES
- Clermont Avenue, west side, *concrete construction by SHA near Strathmore*

3'-3" Concrete Sidewalk

- At a street tree in Garrett Park Estates, in front of 4811 Strathmore Avenue (frontage road), between Town Limits and Flanders Avenue

Zero Sidewalk Setback from Curb (integral construction)

- (All of the “*including curb*” examples above)

3'-3" Sidewalk Setback from Curb

- North side of Strathmore Avenue midway between Clermont and Montrose Avenues (adjacent to low stone wall)

5-Foot to 9-Foot Sidewalk Setback from Curb

- Typical range where there are off-Strathmore concrete sidewalks in Garrett Park today, e.g., 5'-3" at Town Hall and 8'-10" at Turkish Summer Embassy (10909 Kenilworth Avenue)
